ALI HYDER

Software Engineer | Full-Stack Developer

Email | LinkedIn | GitHub

Professional Summary

Software Engineering graduate and Full-Stack Developer with experience building responsive web applications, frontend interfaces, backend APIs, and database integrations. Skilled in React.js, JavaScript, Python, Flask, PostgreSQL, and Supabase. Experienced in API integration, application troubleshooting, database operations, and collaborating with development teams. Interested in developing reliable, maintainable software and AI-integrated applications.

Professional Experience

Full Stack Developer **June 2026 – Present**
CYSTEMATIC SOLUTIONS

- Develop full-stack features across responsive user interfaces and backend services.
- Build and maintain application features supporting user workflows.
- Troubleshoot application issues, test updates, and improve application reliability and usability.
- Collaborate with team members to implement and deliver software changes.

Team Lead & Front-End Developer **June 2025 – July 2025**
Prosensia Pvt. Ltd.

- Coordinated frontend development, testing, and delivery with team members.
- Built responsive interfaces and reusable components using React.js, JavaScript, HTML, CSS, and Bootstrap.
- Tracked development progress and helped resolve technical blockers.
- Used Git and GitHub for version control and collaboration.

Front-End Web Developer **August 2024 – October 2024**
ICreativez Technologies

- Translated UI/UX designs into reusable React components and responsive web interfaces.
- Collaborated with designers and backend developers to integrate APIs.
- Debugged and tested frontend functionality.

Front-End Developer Intern **June 2024 – August 2024**
Exetom Inc.

- Developed web interfaces using HTML, CSS, and JavaScript.
- Assisted with frontend troubleshooting and application testing under senior developer guidance.
- Improved page responsiveness and usability.

Technical Skills

Frontend: React.js, React Native, JavaScript, HTML5, CSS3, Bootstrap, Responsive Design
Backend: Python, Flask, PHP, C++, REST APIs, JSON, API Integration
Databases: PostgreSQL, Supabase, SQL, Relational Database Design, CRUD Operations
Authentication: Supabase Auth, Role-Based Access Control
AI Integration: Ollama, Qwen 2.5, Sentence-BERT, Semantic Similarity, LLM Integration
Tools and Deployment: Git, GitHub, VS Code, Render, Vercel, Supabase Cloud

Projects

Smart Exam System *Python, Flask, Supabase, PostgreSQL*

- Developed a web-based examination platform for exam creation, question management, student submissions, and result processing.
- Designed data structures and workflows for users, exams, questions, submissions, and results across administrator, teacher, and student roles.
- Integrated Qwen 2.5 through Ollama for AI-assisted question generation and Sentence-BERT similarity scoring to support subjective-answer review.
- Configured deployment using Render, Vercel, and Supabase Cloud.
- **GitHub:** Smart-web-exam-fyp

Dependobot – GitHub Dependency Vulnerability Scanner *React, Spring Boot, Java, Supabase*

- Worked on a web application for reviewing dependency security alerts across GitHub repositories.
- Worked on repository scanning, vulnerability dashboards, and scan history.
- Worked with a Spring Boot API design for retrieving GitHub Dependabot alerts and storing results in Supabase PostgreSQL.
- **GitHub:** dependobot

Prosensia Website *React.js, JavaScript, HTML, CSS, Bootstrap*

- Built a responsive recreation of a public-facing company website using reusable React components.
- Implemented desktop and mobile layouts with navigation and service-focused pages.
- **GitHub:** Prosensia-Website-

Library Management System *SQL, Database Development*

- Developed database functionality for managing, searching, and retrieving library records.
- Implemented SQL queries and CRUD operations for structured record management.
- **GitHub:** library-ms

Education

Bachelor of Science in Software Engineering **2022 – 2026**

Pak-Austria Fachhochschule Institute of Applied Sciences and Technology, Haripur, Pakistan

Certifications

- Google Project Management Foundations
- Google Foundations of Digital Marketing and E-commerce
- Ask Questions to Make Data-Driven Decisions – Coursera

Languages

English, Urdu, Sindhi
